A History of White Magic By Gareth Knight

The world of magic is one of high imagination. In this wide-ranging historical survey Gareth Knight shows how the higher imagination has been used as an aid to the evolution of consciousness, from the ancient Mystery Religions, through Alchemy, Renaissance Magic, the Rosicrucian Manifestos, Freemasonry and 19th century Magical Fraternities, up to the modern era. Knight considers magic as a middle ground between science and religion, reconciling them in a technology of the imagination, which properly used, can bring about personal regeneration and spiritual fulfilment. He uses Coleridge's theory of the imagination as a basis for the validity of magic as science and art in its own right. Many systems and structures have come down through the ages slightly shoddy, misrepresented, maligned, misaligned. With this book a deconstruction becomes a recycling of raw material for the purposes of re-ordering and re-configuring - a righted prism, a shored up temple, a foundational re-ballasting.

Editorial Review

Review

It is obvious from the beginning that we have here a work revealing the author's spiritual maturity, a work with a definite message and structure, rather than the piecemeal gathering of snippets of information which often is offered in books with this sort of title, by inferior authors with little occult understanding.A" - The Hermetic Journal

Users Review

From reader reviews:

Lillie Levine:

Do you have favorite book? For those who have, what is your favorite's book? E-book is very important thing for us to learn everything in the world. Each publication has different aim or maybe goal; it means that e-book has different type. Some people sense enjoy to spend their time for you to read a book.
