General, Organic and Biochemistry By Katherine Denniston, Joseph Topping, Kim Woodrum, Robert Caret

The eighth edition of *General, Organic, and Biochemistry* is designed to help undergraduate health-related majors, and students of all other majors, understand key concepts and appreciate the significant connections between chemistry, health, disease, and the treatment of disease. This text continues to strike a balance between theoretical and practical chemistry, while emphasizing material that is unique to health-related studies. The text has been written at a level intended for students whose professional goals do not include a mastery of chemistry, but for whom an understanding of the principles and practice of chemistry is a necessity.

Designed for the one- or two-semester course, this text has an easy-to-follow problem-solving pedagogy, vivid illustrations, and engaging applications.

Editorial Review

About the Author

Joe Topping currently is a professor of analytical chemistry at Towson State University. He did his post-doc at Iowa State University in Ames. At Towson, he has been honored with such awards as the "Outstanding Faculty Award" and the "Faculty Merit Award". He has written ancillaries for an outstanding text, Atkins - General Chemistry and is heavily involved with the American Chemical Society.

Kate Denniston is a biochemist in the Biology Dept. of Towson State University. At Towson, she has been honored with such awards as the "Outstanding Faculty Award" and the "Faculty Merit Award". Her previous employment record is literally a list of some of the best biochemistry institutions in the world: Univ. of Wisconsin as a post-doc, Georgetown University School of Medicine as research professor, National Cancer Institute as a Senior Staff Fellow, the Argonne National Laboratory in their research program, and as an Invited Instructor by the European Molecular Biology Organization. She has written for such noteworthy publications as Nature, Science.

Bob Caret is currently Provost and Executive Vice President of Towson State University and an associate professor of chemistry. He has written an Organic Chemistry text previously. Professor Caret's focus in the textbook is in organic chemistry.

Users Review

From reader reviews:

Angela Rodriguez:

Why don't make it to become your habit? Right now, try to prepare your time to do the important work, like looking for your favorite e-book and reading a e-book. Beside you can solve your long lasting problem; you can add your knowledge by the e-book entitled General, Organic and Biochemistry. Try to stumble through book General, Organic and Biochemistry as your friend. It means that it can be your friend when you really feel alone and beside those of course make you smarter than ever. Yeah, it is very fortunate for yourself. The book makes you a lot more confidence because you can know anything by the book. So, let me make new experience and also knowledge with this book.

Rosa Nguyen:

Spent a free time for you to be fun activity to try and do! A lot of people spent their down time with their family, or their particular friends. Usually they carrying out activity like watching television, gonna beach, or picnic within the park. They actually doing same thing every week. Do you feel it? Do you want to something different to fill your own personal free time/ holiday? May be reading a book may be option to fill your totally free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to test look for book, may be the publication untitled General, Organic and Biochemistry can be very good book to read. May be it may be best activity to you.

Lillian Chatman:

In this period of time globalization it is important to someone to receive information. The information will make professionals understand the condition of the world. The health of the world makes the information better to share. You can find a lot of sources to get information example: internet, magazine, book, and soon. You can view that now, a lot of publisher in which print many kinds of book. The book that recommended to your account is General, Organic and Biochemistry this book consist a lot of the information on the condition of this world now. This kind of book was represented how do the world has grown up. The terminology styles that writer value to explain it is easy to understand. Typically the writer made some analysis when he makes this book. Here is why this book ideal all of you.

Roxanne Harrelson:

This General, Organic and Biochemistry is brand new way for you who has intense curiosity to look for some information because it relief your hunger of information. Getting deeper you on it getting knowledge more you know or else you who still having small amount of digest in reading this General, Organic and Biochemistry can be the light food for you personally because the information inside this book is easy to get by simply anyone. These books acquire itself in the form and that is reachable by anyone, that's why I mean in the e-book contact form. People who think that in publication form make them feel drowsy even dizzy this book is the answer. So there is not any in reading a reserve especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss this! Just read this e-book style for your better life as well as knowledge.
