Business Process Driven SOA using BPMN and BPEL: From Business Process Modeling to Orchestration and Service Oriented Architecture By Kapil Pant

Learn how to model business processes in an SOA-compliant approach using BPMN, translate them into BPEL and execute them on the SOA platform. A practical guide with real-world examples illustrating all key concepts. This book is for CIOs, executives, SOA project managers, business process analysts, BPM and SOA architects, who are responsible for improving the efficiency of business processes through IT, or for designing SOA. It provides a high-level coverage of business process modeling, but it also gives practical development examples on how to move from model to execution. We expect the readers to be familiar with the basics of SOA.
