Comprehensive Organic Synthesis, Second Edition From Elsevier

The second edition of *Comprehensive Organic Synthesis*—winner of the 2015 PROSE Award for Multivolume Reference/Science from the Association of American Publishers—builds upon the highly respected first edition in drawing together the new common themes that underlie the many disparate areas of organic chemistry. These themes support effective and efficient synthetic strategies, thus providing a comprehensive overview of this important discipline.

Fully revised and updated, this new set forms an essential reference work for all those seeking information on the solution of synthetic problems, whether they are experienced practitioners or chemists whose major interests lie outside organic synthesis. In addition, synthetic chemists requiring the essential facts in new areas, as well as students completely new to the field, will find *Comprehensive Organic Synthesis, Second Edition* an invaluable source, providing an authoritative overview of core concepts.

- Winner of the 2015 PROSE Award for Multivolume Reference/Science from the Association of American Publishers
- Contains more than 170 articles across nine volumes, including detailed analysis of core topics such as bonds, oxidation, and reduction
- Includes more than 10,000 schemes and images
- Fully revised and updated; important growth areas—including combinatorial chemistry, new technological, industrial, and green chemistry developments—are covered extensively

Editorial Review

Review

"...the collection's greatest strength: the array of topics presented by subject experts...an important tool for academic and professional chemistry collections....Summing Up: Highly recommended." --**Choice**

Praise for the 1st Edition: "I gazed and gazed but little thought, what walth to me the show had brought'. What daffodils did to Wordsworth, this treatise did to me.... This vast undertaking has been supremely well organised, employing internationally renowned synthetic chemists as editors.... This series presents a refreshing overview of modern synthetic methodology and provokes many tantalising questions and thoughts.... Anyone who synthesises organic compounds must have access to the work" --**Choice**

Users Review

From reader reviews:

Irma Patterson:

Reading a reserve can be one of a lot of task that everyone in the world likes. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a guide will give you a lot of new details. When you read a book you will get new information because book is one of a number of ways to share the information or even their idea. Second, reading through a book will make anyone more imaginative. When you reading through a book especially tale fantasy book the author will bring that you imagine the story how the characters do it anything. Third, you can share your knowledge to other folks. When you read this Comprehensive Organic Synthesis, Second Edition, you could tells your family, friends as well as soon about yours guide. Your knowledge can inspire the mediocre, make them reading a guide.

Carol Castaneda:

Are you kind of busy person, only have 10 or even 15 minute in your day to upgrading your mind talent or thinking skill even analytical thinking? Then you have problem with the book than can satisfy your short time to read it because pretty much everything time you only find book that need more time to be go through. Comprehensive Organic Synthesis, Second Edition can be your answer mainly because it can be read by anyone who have those short extra time problems.

Michael Farrell:

This Comprehensive Organic Synthesis, Second Edition is fresh way for you who has fascination to look for some information as it relief your hunger of knowledge. Getting deeper you on it getting knowledge more you know otherwise you who still having little digest in reading this Comprehensive Organic Synthesis, Second Edition can be the light food for you because the information inside this kind of book is easy to get simply by anyone. These books create itself in the form and that is reachable by anyone, that's why I mean in the e-book form. People who think that in guide form make them feel sleepy even dizzy this e-book is the

answer. So there is not any in reading a guide especially this one. You can find actually looking for. It should be here for you actually. So , don't miss it! Just read this e-book type for your better life and also knowledge.

Paul Ring:

In this particular era which is the greater particular person or who has ability to do something more are more special than other. Do you want to become certainly one of it? It is just simple strategy to have that. What you are related is just spending your time not much but quite enough to have a look at some books. One of several books in the top checklist in your reading list will be Comprehensive Organic Synthesis, Second Edition. This book and that is qualified as The Hungry Hills can get you closer in becoming precious person. By looking upward and review this guide you can get many advantages.
