Emil Artin and Helmut Hasse: The Correspondence 1923-1958 (Contributions in Mathematical and Computational Sciences) From Springer

This volume consists of the English translations of the letters exchanged between Emil Artin to Helmut Hasse written from 1921 until 1958. The letters are accompanied by extensive comments explaining the mathematical background and giving the information needed for understanding these letters. Most letters deal with class field theory and shed a light on the birth of one of its most profound results: Artin's reciprocity law.

Editorial Review

Review

From the book reviews:

“There is extensive mathematical and biographical commentary accompanying the letters, making it possible to follow the discussion without having to be familiar with class field theory and its history. ... For anyone interested in the history of number theory in the 20th century, this book is a must-have.” (Fernando Q. Gouvêa, MAA Reviews, July, 2014)

From the Back Cover

This volume presents English translations of the letters exchanged between Emil Artin and Helmut Hasse written from 1921 to 1958. The letters are accompanied by extensive comments explaining the mathematical background and providing other essential context. Most letters deal with class field theory and shed new light on the birth of one of its most profound results: Artin’s reciprocity law.

Users Review

From reader reviews:

Gregory Holloman:

This book untitled Emil Artin and Helmut Hasse: The Correspondence 1923-1958 (Contributions in Mathematical and Computational Sciences) to be one of several books which best seller in this year, here is because when you read this reserve you can get a lot of benefit in it. You will easily to buy that book in the book retail outlet or you can order it by way of online. The publisher on this book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Cell phone. So there is no reason for you to past this publication from your list.

Susan Gagnon:

A lot of people always spent all their free time to vacation or even go to the outside with them friends and family or their friend. Do you know? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity here is look different you can read a book. It is really fun for yourself. If you enjoy the book which you read you can spent all day every day to reading a publication. The book Emil Artin and Helmut Hasse: The Correspondence 1923-1958 (Contributions in Mathematical and Computational Sciences) it is quite good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to bring this book you can buy the e-book. You can m0ore simply to read this book from a smart phone. The price is not too costly but this book provides high quality.

Adrian Rogers:

Many people spending their moment by playing outside together with friends, fun activity using family or just watching TV all day long. You can have new activity to spend your whole day by examining a book. Ugh, do you think reading a book really can hard because you have to accept the book everywhere? It all right you can have the e-book, bringing everywhere you want in your Smartphone. Like Emil Artin and Helmut Hasse: The Correspondence 1923-1958 (Contributions in Mathematical and Computational Sciences) which is getting the e-book version. So , try out this book? Let's view.

Ruth Zimmer:

Book is one of source of expertise. We can add our know-how from it. Not only for students but native or citizen have to have book to know the up-date information of year for you to year. As we know those books have many advantages. Beside we all add our knowledge, could also bring us to around the world. From the book Emil Artin and Helmut Hasse: The Correspondence 1923-1958 (Contributions in Mathematical and Computational Sciences) we can acquire more advantage. Don't you to be creative people? To become creative person must prefer to read a book. Simply choose the best book that appropriate with your aim. Don't end up being doubt to change your life at this time book Emil Artin and Helmut Hasse: The Correspondence 1923-1958 (Contributions in Mathematical and Computational Sciences). You can more attractive than now.
