Advances in Surgical Pathology: Mesothelioma By Richard L Attanoos MD, Timothy C. Allen MD JD

Advances in Surgical Pathology: Mesothelioma, a volume in the **Advances in Surgical Pathology** series, features chapters on current and impending changes in the field with an emphasis on practical issues, recent developments, and emerging concepts.

Created as a quick review, this volume delivers a concise, updated review of the pathological characteristics of mesothelioma—emphasizing the histologic correlation, clinical management, and treatment of the disease. Timely content features include recognition of precursor mesothelial lesions, the role of molecular biology in the diagnosis and prognosis of mesothelioma, the interface between the clinician and the surgical pathologist, and the legal implications of attributing disease origin to asbestos and other factors. The book provides a resource for the periodic updates in knowledge required for daily practice, for current credentialing, and for the self-assessment modules for recertification.

- **Concise and practical format** provides a quick review of mesothelioma ideal for residents, fellows, practicing pathologists, and clinicians.
- **Core content addresses** mesothelioma diagnosis, WHO classification, staging, imaging, biopsy, mimicking conditions, immunohistochemistry, targeted gene therapy, and the potential for stem cell treatment.
- **Focus on recent advances and emerging technologies** helps guide readers' clinical care when treating patients with mesothelioma.
- **Over 110 full-color images** improve diagnostic accuracy.

Editorial Review

Review

'encompasses all aspects of mesothelioma from its diagnosis to its medicolegal implications'

'strong focus on the differential diagnosis of the disease, making sure mimics are excluded, is a significant strength of the book, as is a nice algorithm for use when making a diagnosis of mesothelioma on serosal biopsy'

'It is well written and provides the necessary aspects to aid in the accurate diagnosis of mesothelioma so that both heartache of the patient as well as of the diagnosing pathologist can be avoided.'

-Doodys Publishers' Club, Friday, April 18, 2014

Users Review

From reader reviews:

Ruth Cook:

Do you have favorite book? Should you have, what is your favorite's book? Book is very important thing for us to find out everything in the world. Each publication has different aim or maybe goal; it means that publication has different type. Some people experience enjoy to spend their a chance to read a book.
