### Editorial Review

From the Back Cover

The fast and easy way to understanding the fundamentals of Java

Finally you can learn to write well-crafted, functional Java programs in a snap. Have fun as you quickly grasp Java programming language concepts to help you create solid Java programs. This amazingly resourceful guide provides step-by-step instruction with lots of examples in easy-to-understand, accessible language. First, you'll learn what computer programs are and how they function, then you'll uncover how easy and simple it is to write Java instructions. Next, you'll dive deeper into language fundamentals, discovering the role of expressions and statements, arrays, and classes, plus exception handling and JDBC. Featuring end-of-chapter quizzes and a final exam, this book will have you running Java programs in no time at all. Simple enough for a beginner, but challenging enough for an advanced student, *Java Demystified* is your shortcut to mastering Java.

This one of a kind self-teaching text offers:

- An easy way to understand Java
- A quiz at the end of each chapter
- A final exam at the end of the book
- No unnecessary technical jargon
- A time-saving approach

About the Author

Jim Keogh is on the faculty of Columbia University teaching courses in its technology certification program. He has spent 15 years developing computer systems for major Wall Street firms such as Salomen, Inc. and Bear Stearns and has written several best-selling books for Prentice Hall and IDG.

### Users Review

**From reader reviews:**

**Juan Harrell:**

Information is provisions for anyone to get better life, information currently can get by anyone from everywhere. The information can be a knowledge or any news even restricted. What people must be consider whenever those information which is from the former life are challenging to be find than now's taking seriously which one is acceptable to believe or which one often the resource are convinced. If you obtain the unstable resource then you have it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Java Demystified as the daily resource information.

**Ester Beckles:**

Spent a free time to be fun activity to accomplish! A lot of people spent their sparetime with their family, or their own friends. Usually they carrying out activity like watching television, planning to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you want to something
