An Architecture Notebook By Simon Unwin

An Architecture Notebook builds on the foundation of Simon Unwin's previous book *Analysing Architecture* (Routledge, 1997). Using numerous examples, illustrated with clear line drawings, this volume describes and illustrates the many powers attaching to one of the most basic of architectural elements, the wall.

Like its predecessor, *An Architecture Notebook* is a stimulus to thinking about what one can do with architecture. It also offers an example to student architects of how they might keep their own architecture notebooks, collecting ideas, sorting strategies, generally expanding their understanding of the potential of architecture in changing the world.

Editorial Review

From the Back Cover

An Architecture Notebook builds on the foundation of Simon Unwin's previous book *Analysing Architecture* (Routledge, 1997). Using numerous examples, illustrated with clear line drawings, this volume describes and illustrates the many powers attaching to one of the most basic architectural elements -- the wall.

Exploring its primitive origins in relation to the natural walls of cliffs and caves; illustrating the effects and opportunities of its evolution into the artificial and then the naked cave; and examining the ways in which it is used to frame and organise the spaces of our lives, this book presents the wall as one of the most powerful inventions of the mind.

Like its predecessor, *An Architecture Notebook* is a stimulus to thinking about what one can do with architecture. It offers an example to student architects of how they might keep their own architecture notebooks, collecting ideas, sorting strategies, generally expanding their understanding of the potential of architecture to change the world.

About the Author

Simon Unwin is lecturer at the Welsh School of Architecture in Cardiff.

Users Review

From reader reviews:

Greg Wilson:

Nowadays reading books become more and more than want or need but also turn into a life style. This reading addiction give you lot of advantages. Advantages you got of course the knowledge the particular information inside the book in which improve your knowledge and information. The info you get based on what kind of book you read, if you want drive more knowledge just go with knowledge books but if you want experience happy read one with theme for entertaining such as comic or novel. The actual *An Architecture Notebook* is kind of book which is giving the reader erratic experience.

Miguel Philip:

Reading can called thoughts hangout, why? Because if you are reading a book specifically book entitled *An Architecture Notebook* your head will drift away trough every dimension, wandering in every aspect that maybe unknown for but surely might be your mind friends.
