Linux Mint 17.2: Desktops and Administration By Richard Petersen

This book covers the Linux Mint 17.2 release (Rafaela), focusing on desktops and administrative tools. The emphasis here is on what users will face when using Mint, covering topics like installation, applications, software management, the Mint desktops (Cinnamon, Mate, and KDE), shell commands, network connections, and system administration tasks. Linux Mint 17.2 is based on the Ubuntu 14.04 long-term support release. The Cinnamon, Mate, and Linux Mint KDE desktops are examined in detail. Cinnamon and Mate have custom Mint menus to manage access to applications and devices. Advanced components are also examined such as the Mint display Manager (MDM), PulseAudio sound configuration, and Mint software management applications (Software Manager and Update Manager). Administration topics include system tools, managing users, file systems, Bluetooth setup, printer configuration, and network folder and file sharing. In addition configuration of wired and wireless connections, firewalls (the Gufw and FirewallD), and service management (Upstart) are covered. Shared resources are also examined, including the CUPS printing server, the NFS Linux network file server, and Samba Windows file and printing server.

Editorial Review

Users Review

From reader reviews:

Rachel Leadbetter:

The book Linux Mint 17.2: Desktops and Administration give you a sense of feeling enjoy for your spare time. You can utilize to make your capable far more increase. Book can being your best friend when you getting tension or having big problem together with your subject. If you can make reading a book Linux Mint 17.2: Desktops and Administration being your habit, you can get more advantages, like add your own capable, increase your knowledge about many or all subjects. You are able to know everything if you like available and read a publication Linux Mint 17.2: Desktops and Administration. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this book?

Gloria Castaldo:

Reading a publication tends to be new life style in this particular era globalization. With reading you can get a lot of information that will give you benefit in your life. Along with book everyone in this world can share their idea. Textbooks can also inspire a lot of people. Many author can inspire their own reader with their story or even their experience. Not only situation that share in the textbooks. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors nowadays always try to improve their expertise in writing, they also doing some exploration before they write to the book. One of them is this Linux Mint 17.2: Desktops and Administration.

Sheri Williams:

Reading can called mind hangout, why? Because when you find yourself reading a book mainly book entitled Linux Mint 17.2: Desktops and Administration the mind will drift away trough every dimension, wandering in each aspect that maybe unidentified for but surely will end up your mind friends. Imaging every word written in a e-book then become one web form conclusion and explanation which maybe you never get ahead of. The Linux Mint 17.2: Desktops and Administration giving you another experience more than blown away the mind but also giving you useful data for your better life on this era. So now let us present to you the relaxing pattern this is your body and mind is going to be pleased when you are finished reading through it, like winning a sport. Do you want to try this extraordinary investing spare time activity?

Elizabeth Rivera:

As a university student exactly feel bored to help reading. If their teacher expected them to go to the library in order to make summary for some e-book, they are complained. Just minor students that has reading's heart

or real their interest. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that studying is not important, boring and can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Linux Mint 17.2: Desktops and Administration can make you truly feel more interested to read.
