Marine Painting Manual By A.M. Berendsen

It is a pleasure to introduce to the reader this new *Marine Painting Manual*. The previous edition, entitled *Ship Painting Manual*, was published in 1975. Since then a number of new technological developments have taken place. Also, standards with regard to safety, health and the environment have become more severe. These changes called for a thoroughly revised and updated *Marine Painting Manual*. I believe that the editor should be congratulated on having completed this task in such a commendable way. I hope that this new volume will find as enthusiastic a response among those concerned with maritime affairs as its predecessor did some fifteen years ago. - Dr. Jan Raat, Director Netherlands Foundation for the Co-ordination of Maritime Research

The *Marine Painting Manual* sets out to provide clear guidelines for the effective protection of marine structures, ocean-going vessels and offshore platforms. Painting is a high cost procedure and is a crucial factor in determining the life and subsequent maintenance of steel structures in the marine environment. The book is a follow-up to the *Ship Painting Manual* published in 1975. It has been completely revised, partly rewritten and an additional chapter on offshore structures included. The present volume contains detailed and up-to-date information on all aspects of the preparation and painting for the protection of marine structures.
