

Mastering Lambdas: Java Programming in a Multicore World (Oracle Press)

By Maurice Naftalin

Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) By Maurice Naftalin

The Definitive Guide to Lambda Expressions

Mastering Lambdas: Java Programming in a Multicore World describes how the lambda-related features of Java SE 8 will enable Java to meet the challenges of next-generation parallel hardware architectures. The book explains how to write lambdas, and how to use them in streams and in collection processing, providing code examples throughout. You'll learn how to use lambda expressions to take full advantage of performance improvements provided by today's multicore hardware. This Oracle Press book covers:

- Why lambdas were needed, and how they will change Java programming
- Syntax of lambda expressions
- The basic operation of streams and pipelines
- Using collectors and reduction to end pipelines
- Creating streams
- Spliterators, the fork/join framework, and exceptions
- Examining stream performance with microbenchmarking
- API evolution using default methods

Editorial Review

About the Author

Maurice Naftalin has over 30 years' experience in IT – as developer, designer, architect, manager, teacher, and author. He is a certified Java Programmer and has worked in every release of Java to date. Naftalin's experience in Java and business give him a unique perspective on the fundamental change that comes with introducing Lambda expressions in Java. He is a frequent presenter at conferences worldwide, including the annual JavaOne.

Users Review

From reader reviews:

Mandy Conway:

The knowledge that you get from Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) is the more deep you searching the information that hide inside the words the more you get enthusiastic about reading it. It doesn't mean that this book is hard to be aware of but Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) giving you enjoyment feeling of reading. The article author conveys their point in certain way that can be understood by simply anyone who read the idea because the author of this publication is well-known enough. This book also makes your current vocabulary increase well. That makes it easy to understand then can go together with you, both in printed or e-book style are available. We advise you for having that Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) instantly.

Jose Rosales:

The book untitled Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) is the e-book that recommended to you to study. You can see the quality of the e-book content that will be shown to you. The language that article author use to explained their way of doing something is easily to understand. The writer was did a lot of exploration when write the book, hence the information that they share for you is absolutely accurate. You also will get the e-book of Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) from the publisher to make you much more enjoy free time.

Kathleen Knight:

On this era which is the greater man or woman or who has ability to do something more are more special than other. Do you want to become one of it? It is just simple approach to have that. What you have to do is just spending your time not much but quite enough to enjoy a look at some books. One of the books in the top checklist in your reading list will be Mastering Lambdas: Java Programming in a Multicore World (Oracle Press). This book and that is qualified as The Hungry Hills can get you closer in getting precious

person. By looking upward and review this guide you can get many advantages.

Cruz Fleury:

Do you like reading a reserve? Confuse to looking for your selected book? Or your book seemed to be rare? Why so many concern for the book? But virtually any people feel that they enjoy for reading. Some people likes looking at, not only science book but novel and Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) or even others sources were given knowledge for you. After you know how the great a book, you feel need to read more and more. Science book was created for teacher or perhaps students especially. Those guides are helping them to bring their knowledge. In various other case, beside science guide, any other book likes Mastering Lambdas: Java Programming in a Multicore World (Oracle Press) to make your spare time more colorful. Many types of book like here.
