Migration and Remittances from Mexico: Trends, Impacts, and New Challenges From Lexington Books

Migration and Remittances from Mexico: Trends, Impacts, and New Challenges, edited by Alfredo Cuecuecha and Carla Pederzini, compiles twelve articles on the migration phenomenon from Mexico and other Latin American countries to the United States.

The first part of the book provides an overview of three recent surveys, all carried out in Mexico. The surveys consider international migration flows from Mexico to the United States, the characteristics of migrants, and some of the causes and effects of migration in Mexico both for national and rural samples. The next section of the book analyzes the factors that explain the relationship between internal migration and human development. Then, the authors look at different issues of migration from Mexico and Latin American countries to the United States. The topics include female educational selection in migrants from Mexico to the United States, the impact of differences in the U.S.-Mexico labor market outcomes on the migratory flow, the working conditions of Mexican migrants to the United States under H2 visas, and the breadth and depth of migrants' connections from Latin American countries to the United States. The fourth and final section of the book studies a variety of aspects related to remittances from United States to Mexico and Latin American countries, including whether remittances promote growth in Mexico, whether remittances sent to Mexico finance migration of more Mexicans to the United States, and whether remittances have positive impacts in the households that receive them.

The contributors to *Migration and Remittances from Mexico* are specialized migration researchers, trained in a broad variety of fields, including economics, sociology, demography, and political science in both Mexico and the United States. This range of backgrounds provides an essential multidisciplinary perspective from both sides of the border.

Beverly Hill:

As a pupil exactly feel bored to help reading. If their teacher questioned them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's heart or real their passion. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that looking at is not important, boring and can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Migration and Remittances from Mexico: Trends, Impacts, and New Challenges can make you feel more interested to read.
