Bailout Riches!: How Everyday Investors Can Make a Fortune Buying Bad Loans for Pennies on the Dollar By Bill Bartmann, Jonathan Rozek

What is the investment opportunity from America's financial crisis? Somewhere north of one trillion dollars of debt--mortgages, credit cards, and other forms--will be written off and sold to buyers at pennies on the dollar. It gets even better: There are ways to buy that debt with no money of your own.

Society's collective pain from this crisis means that it's unlikely to occur ever again on this scale. Investors with the right roadmap are poised to profit spectacularly. Bartmann lays out a step by step plan on how to find the best deals from the federal government, local Financial Institutions, and loan brokers. The spectrum of loans that are available include: credit card debt, consumer loans, business loans, commercial loans, and real estate loans.

You've heard about the massive government bailout of the financial sector and its cost to taxpayers. Couple that with skyrocketing unemployment and a shrinking stock market and you might think this is a terrible time to invest in anything. But you'd be wrong.

In *Bailout Riches!*, Bill Bartmann shows you how to invest in the bailout itself and take your own cut of the trillion-dollar pie. What does Bartmann know about bailouts? Only that the last big-time government bailout-involving the savings and loan crisis and the government's Resolution Trust Corporation- made him a billionaire. This time around, the bailout is much bigger and opportunities for profit are much greater.

"Who better to teach you how to prosper from this economic chaos than a man who actually took himself from 'bankruptcy to billionaire' during the last crisis." --**Ken Blanchard**, coauthor, *The One Minute Entrepreneur*

"Bill Bartmann is more than a great financial success story; he is a phenomenal teacher who has helped thousands of my students achieve success. *Bailout Riches* will show you how you can prosper during these tumultuous times." --**T. Harv Eker**, author, *New York Times* #1 bestseller, *Secrets of the Millionaire Mind*

"When the economy is in crisis, Bill Bartmann finds the diamond in the rough. The information in this book made him a billionaire fourteen years ago during

the S&L crisis. Now the economy is cratering again and his methods are working better than ever. Read this book and discover a hidden source of wealth all around you."--**David Lindahl**, author of *Emerging Real Estate Markets* and *Multi-Family Millions*

Editorial Review

From the Inside Flap

In the current bailout, billions of taxpayer dollars are being used to buy bad debts from banks in order to keep those banks solvent as borrowers default on loans. These bad debts are being sold for pennies on the dollar to anyone willing to buy them. But just because these are bad debts doesn't mean they're worthless investments. Imagine this: you buy a \$5,000 bad loan for just \$250. You approach the borrower in default and offer them a chance to settle that \$5,000 debt for just \$500. If they agree, you've made a one hundred percent profit on your investment, the bank has the loan off their books, and the borrower is out of debt. It's a win-win-win situation!

If that sounds like fantasy, it's not; it's how Bartmann made his fortune and how you can make yours, too. But if his ideas worked so well, why would Bartmann share them? Simple—there's plenty to go around.

In fact, over the next year or two, somewhere around \$1 trillion of debt will be written down and sold to buyers at ridiculously cheap prices. Now is the time to get your share.

Bailout Riches! lays out a step-by-step plan for finding the best deals on loan packages, building a valuable debt portfolio, and collecting from debtors with little hassle. It's simple, it's practical, and it's cheap to get started. If you're looking for a new way to make real money, Bailout Riches! will show you how to jump on the biggest gravy train in recent history.
