GIS and Crime Mapping By Spencer Chainey, Jerry Ratcliffe

The growing potential of GIS for supporting policing and crime reduction is now being recognised by a broader community. GIS can be employed at different levels to support operational policing, tactical crime mapping, detection, and wider-ranging strategic analyses. With the use of GIS for crime mapping increasing, this book provides a definitive reference.

GIS and Crime Mapping provides essential information and reference material to support readers in developing and implementing crime mapping. Relevant case studies help demonstrate the key principles, concepts and applications of crime mapping.

This book combines the topics of theoretical principles, GIS, analytical techniques, data processing solutions, information sharing, problem-solving approaches, map design, and organisational structures for using crime mapping for policing and crime reduction. Delivered in an accessible style, topics are covered in a manner that underpins crime mapping use in the three broad areas of operations, tactics and strategy.

- Provides a complete start-to-finish coverage of crime mapping, including theory, scientific methodologies, analysis techniques and design principles.
- Includes a comprehensive presentation of crime mapping applications for operational, tactical and strategic purposes.
- Includes global case studies and examples to demonstrate good practice.
- Co-authored by Spencer Chainey, a leading researcher and consultant on GIS and crime mapping, and Jerry Ratcliffe, a renowned professor and former police officer.

This book is essential reading for crime analysts and other professionals working in intelligence roles in law enforcement or crime reduction, at the local, regional and national government levels. It is also an excellent reference for undergraduate and Masters students taking courses in GIS, Geomatics, Crime Mapping, Crime Science, Criminal Justice and Criminology.

Users Review

From reader reviews:

Irene Gwyn:

As people who live in the actual modest era should be up-date about what going on or data even knowledge to make them keep up with the era and that is always change and move ahead. Some of you maybe will update themselves by reading through books. It is a good choice for yourself but the problems coming to an individual is you don't know what one you should start with. This GIS and Crime Mapping is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and wish in this era.

Gabrielle Oneal:

Reading a guide tends to be new life style in this particular era globalization. With reading you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can certainly share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire all their reader with their story or perhaps their experience. Not only the storyline that share in the guides. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors these days always try to improve their skill in writing, they also doing some analysis before they write to the book. One of them is this GIS and Crime Mapping.

Anthony Wood:

Does one one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Try and pick one book that you never know the inside because don't assess book by its include may doesn't work this is difficult job because you are scared that the inside maybe not while fantastic as in the outside seem likes. Maybe you answer may be GIS and Crime Mapping why because the wonderful cover that make you consider with regards to the content will not disappoint anyone. The inside or content is fantastic as the outside or even cover. Your reading 6th sense will directly assist you to pick up this book.

Pat Tran:

Are you kind of active person, only have 10 or even 15 minute in your time to upgrading your mind skill or thinking skill possibly analytical thinking? Then you are receiving problem with the book when compared with can satisfy your short space of time to read it because this all time you only find book that need more time to be read. GIS and Crime Mapping can be your answer given it can be read by an individual who have those short extra time problems.
