Editorial Review

From Publishers Weekly

In this first volume of The Mage Storms trilogy, the prolific Lackey's fantastic themes, while not especially distinctive, are nonetheless deployed in entertaining and comfortably familiar fashion. Picking up where The Mage Winds saga concluded, this story follows the novice cleric Karal and the young wizardly Adept An'desha as they struggle with adult responsibilities. In fact, while many meetings are held to discuss the threat of a nasty political takeover and an overwhelming evil, very little action ensues--the plot is almost completely concerned with the protagonists' personal growth. An'desha is afraid to sift through the nasty memories left behind in his brain by a diabolical Mage. When these memories become the key to solving the terrifying waves of magic that are wreaking havoc in the Kingdom, good-hearted Karal must help his friend find the internal strength to overcome his fears. Lackey populates her tale with wise adults and engaging magical animals, but ultimately delivers little that's new or original. Her book feels like a series of moral lessons (know thyself, do good works, etc.) from Saturday morning cartoons.

From Library Journal

In the face of a growing threat from the mysterious and powerful Eastern Empire, the lands of Valdemar and Karse attempt to form an alliance despite old prejudices and misunderstandings. Readers familiar with the author's previous Valdemar series ("The Mage Winds," "The Heralds of Valdemar," etc.) will enjoy the return of favorite characters, while a vivid assortment of new protagonists continues to expand the wealth of cultures present in one of fantasy's most intriguing universes. Lackey's talent for evoking the youthful passions of her heroes and heroines brings life to this creation. Recommended.

From [Booklist](#)

Lackey returns to her most popular creation, the world of Valdemar, in the first novel of a new trilogy, Mage Storms. Valdemar faces the problems of a necessary alliance with its longtime foe, Karse, against Hadorn and the resurgent Eastern Empire. Lackey is a sound storyteller, and Valdemar is a well-wrought world in which problem-ridden characters (human and other) and plots and schemes (more than a few involving sorcery) abound. There is also a large audience for Lackey's creation, but it's hard to avoid feeling that Lackey is beginning to repeat herself and that Valdemar may not be the arena for her best work. This will not, however, much alloy the pleasure devout Valdemar readers will take in the new book. Their desires should be met: get this volume. *Roland Green*

Users Review

From reader reviews:

Nathan Kelly:

Now a day individuals who Living in the era exactly where everything reachable by connect to the internet and the resources in it can be true or not require people to be aware of each data they get.
