Editorial Review

Amazon.com Review

If you want to learn more about your family, now's the time to start. With the advent of the Internet, there's more information available than ever before, and it's easier to access now than in the good old days of musty libraries and records halls. *The Complete Idiot's Guide to Online Genealogy* by Rhonda McClure will have you wired and digging up dirt (or gold) in just an hour or two. Even the most ardent computer-hater will have to admit that the search is simpler, and McClure makes the case clearly. Her charming prose is well complemented by online images and hint boxes scattered liberally on each page. Specific sites are mentioned as well as general means of searching for family data, so even if one site disappears you can still get what you need. The book covers the basics of both gathering family data and online searches, so if you're not quite up to speed on one or the other, you can quickly figure it out. After you've browsed a bit and started collecting information, the later chapters help you to communicate with other researchers, mining government records, and even publishing your own results online. It's not hard to learn plenty about your family's history; whether you want to get in touch with your roots, glean medical information to improve your own health, or give your kids something to think about, *The Complete Idiot's Guide to Online Genealogy* is for you. --Rob Lightner

Review

The single best 'beginner's guide' in the genealogical field. (Elizabeth Shown Mills, editor of the *National Genealogical Society Quarterly*)

From the Back Cover

You're no idiot, of course. You know that back in the "old country", wherever that may be, there are probably ancient parchments listing your ancestors--and if you could go back, you could trace your lineage to its source. But when it comes to setting off on your personal expedition, time and finances keep you "rooted" in the here and now. Don't give up on discovering where you came from! The Complete Idiot's Guide to Online Genealogy is a fun, easy-to-follow guide to sleuthing around cyberspace to learn about your past--a cost-effective alternative to packing a trunk and setting sail. In this Complete Idiot's Guide, you get:

Users Review

From reader reviews:

David Browning:

The book The Complete Idiot's Guide to Genealogy, 2nd Edition can give more knowledge and information about everything you want.
