Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) From Brand: Cambridge University Press

Here is a concise and accessible exposition of a wide range of topics in geometric approaches to differential equations. The authors present an overview of this developing subject and introduce a number of related topics, including twistor theory, vortex filament dynamics, calculus of variations, exterior differential systems and Bäcklund transformations. The book is an ideal starting point for graduate students embarking on research.

Editorial Review

Review

"There are several illuminating examples and some interesting history in these articles." SIAM Review

Users Review

From reader reviews:

Cathy Thomas:

Book is definitely written, printed, or illustrated for everything. You can realize everything you want by a book. Book has a different type. As we know that book is important matter to bring us around the world. Next to that you can your reading skill was fluently. A reserve Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) will make you to always be smarter. You can feel much more confidence if you can know about every little thing. But some of you think this open or reading a book make you bored. It is not make you fun. Why they might be thought like that? Have you seeking best book or ideal book with you?

Michelle Porter:

This Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book is information inside this reserve incredible fresh, you will get data which is getting deeper a person read a lot of information you will get. This Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) without we recognize teach the one who examining it become critical in thinking and analyzing. Don't be worry Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) can bring if you are and not make your handbag space or bookshelves' grow to be full because you can have it inside your lovely laptop even phone. This Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) having excellent arrangement in word and layout, so you will not really feel uninterested in reading.

Katherin Buerger:

Don't be worry in case you are afraid that this book will certainly filled the space in your house, you may have it in e-book way, more simple and reachable. This Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) can give you a lot of close friends because by you considering this one book you have thing that they don't and make a person more like an interesting person. This particular book can be one of a step for you to get success. This reserve offer you information that probably your friend doesn't know, by knowing more than some other make you to be great individuals. So , why hesitate? Let us have Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series).

Shawn Jones:

Do you like reading a book? Confuse to looking for your best book? Or your book had been rare? Why so many issue for the book? But virtually any people feel that they enjoy intended for reading. Some people likes reading, not only science book but additionally novel and Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) or perhaps others sources were given know-how for you. After you know how the fantastic a book, you feel desire to read more and more. Science publication was created for teacher or students especially. Those publications are helping them to put their knowledge. In various other case, beside science e-book, any other book likes Geometric Approaches to Differential Equations (Australian Mathematical Society Lecture Series) to make your spare time a lot more colorful. Many types of book like this one.
